About Me

Hello! My name is **KETHAVATH SHIVA**. Welcome to my Portfolio.

I'm a passionate **Data Analyst** and **Web Developer** with skills in Python, SQL, HTML, CSS, Machine Learning, and Data Visualization.

I enjoy building dashboards, analyzing datasets, and creating clean web pages.

Completed projects such as Rainfall Forecasting, Sales Performance Dashboard, and various development tasks.

I love learning new technologies and solving real-world problems in Data Analytics & ML.

My Hobbies

- Coding
- Reading
- Gaming
- Learning new technologies

Projects

Sales Performance Dashboard

Created a dynamic Superstore Sales Dashboard using Power BI with DAX, Power Query, and interactive filters.

Tech: Power BI, DAX, Power Query

GitHub Repository:

Rain Forecasting

Built a rainfall prediction model using Random Forest, SARIMA, and time-series feature engineering.

Tech: Python, scikit-learn, SARIMA, Pandas

GitHub Repository:
